

Envoy Global Retail Manager

The Envoy Global Retail Manager (Envoy GRM) is designed to control every aspect of retail operations for convenience store companies with multiple locations, in one or many countries, with one or many languages and currency requirements. Overall system control and verifications is control is maintained at headquarters. Individual sites update their sales, purchases, reconciliations, and other vital data via entry and bi-directional POS interfaces.

Envoy GRM can run in smart client mode, thin client mode, or mixed mode. Envoy GRM is developed around Microsoft .Net technologies using the .Net 3.5 framework, C#, ASP.NET, and Microsoft SQL Server 2008 database.

1 Key Features

Daily Visibility

Envoy GRM provides visibility to key items based upon role. A headquarters user may see audit data to confirm a store manager's data, but the store manager will not see the audit data. User only see data as defined by their role.

Daily Sequence Menu

Customize the daily "to-do" list for your back office managers. This unique autopilot allows you to maintain consistency and control by choosing the screens and the order you want your back office operators to follow on a daily basis.

Fuel Management

The Envoy GRM fuel system includes tank configurations, tank conversion tables, pumps/dispensers, fuel grades and competitors.

2 Key Features

Robust Reporting

Generate a full range of reports in minutes, not hours. Reports are dynamic, may be pre-scheduled, and may be emailed.

Pricebook EDI

Pricebook EDI is a tool that allows users to create customized interfaces with vendors for everyday pricebook maintenance. Envoy's Pricebook EDI not only allows you to receive automatic electronic pricebook updates, it even warns you of any exceptions. All proposed cost or retail changes are presented for acceptance, or rejection.

Exception Module

The Exception Module allows you to select which trouble spots you want to manage. You define the parameters and Envoy will alert you when the exceptions occur.

Pricebook With Inventory Tracking

The Envoy GRM pricebook is one of the most

A Global Retail Management Solution

robust on the market today. Promos, mix-n-match, fuel-merchandise promos, tax on tax, BOG'X', deli and recipe items; all features supported by the Envoy pricebook and inventory system,

Reordering

Generate more efficient vendor orders by allowing Envoy's order generation forecast to suggest how much to order and when to order, based on inventory and sales. Relay this order electronically to your wholesaler for quick and accurate transaction.
